

Ross Zentner, Lighting Designer

LOOK

BIOGRAPHY

Ross Zentner Photography and Imaging was in the making back in 2005 when a talented young photographer began capturing the world through his lens and sharing it with friends and family. Since then, his talent has become a skill and his time has been spent learning his craft and bringing it to the public one photo shoot at a time.

"I began with a simple 'point and shoot' camera, which I believe was the best thing I could have done," Ross recalled in a short Q&A session, "I was able to focus on compositions and technique and less on complex camera settings."

Ross Ernan Zentner is currently a student at University of Wisconsin: Milwaukee in pursuit of a Bachelor of Fine Arts Degree. He has a passion for lighting which comes across strongly in his portfolio. The ability to see light in a way which others often ignore has driven him to excel in this aspect of photography.

Ross has had work featured in 2009 Beloit Art Walk, Pleasant Street Coffee Shop, Beloit Public Library, Visit Beloit, and Friends of Riverfront. In addition to exhibitions of his work, he has had the pleasure of photographing The Fireside Dinner Theatre, Milwaukee Ballet, Antishadows' Productions, UWM Theatre, Beloit Riverfest, Youngblood Theatre, The Royal Mexican Players, Renaissance Theatreworks, as well as many others.
